## EDUCATION

### Concordia University

*B. Eng. in Software Engineering*

- Awards: Gina Cody School Women In Engineering Entrance Award 2025

Montreal, QC

*Sept. 2024 – Apr. 2028*

## EXPERIENCE

### Public Awareness Coordinator

*Regroupement des Éco-Quartiers*

June 2023 – Sep. 2023

*Contract - Montreal, QC*

- Conducted door-to-door campaigns to educate residents about environmental issues and sustainable living practices.
- Staffed informational kiosks in public spaces to disseminate environmental information and resources.
- Gathered and recorded data on community environmental practices to inform future initiatives.
- Recorded and entered data from inspections into databases, ensuring accuracy and providing detailed notes on the waste management practices in each sector of Montreal North.
- Conducted inspections of waste, compost, and recycling bins during data collection to ensure compliance with composting rules and regulations.

### Store Associate

*Dollarama Inc.*

July 2022 – July 2023

*Part-Time - Montreal, QC*

- Operated cash registers efficiently and assisted customers with transactions.
- Troubleshoot and repaired self-checkout machines.
- Stocked shelves and ensured that product displays were well-organized.
- Maintained composure while providing excellent customer service in a high-stress retail environment, effectively resolving issues to ensure customer satisfaction.
- Handled customer complaints efficiently and professionally.

### Volunteer

*Montreal General Hospital*

May 2021 – May 2024

*Montreal, QC*

- Served tea and coffee to patients, enhancing their comfort and well-being during hospital stays.
- Operated the help desk, providing directions, answering inquiries, and offering general support to all.
- Distributed masks and ensured adherence to proper sanitation protocols, maintaining a safe and hygienic environment.
- Maintained a welcoming, organized, and supportive atmosphere for patients, visitors, and healthcare professionals.

## PROJECTS

### Animated Baking Timer Desktop Application | *HTML, CSS, JS, Electron.js, Node.js*

2025

- Developed a cross-platform desktop timer app using Electron.js, with custom presets for different baking types.
- Created all visual components including backgrounds, buttons, and pixel-art assets.
- Implemented pixel-style UI with animated backgrounds and custom minimize/close buttons.
- Used image-based buttons and real-time countdown logic to create an intuitive user experience.

### Pet Adoption Web Platform | *Node.js, Express, EJS, HTML/CSS, JavaScript, File I/O*

2025

- Built a full-stack web application enabling users to register, log in, list and search for pets.
- Implemented dynamic form validation, session-based login authentication, and persistent data storage.
- Designed a user-friendly frontend with custom styles and responsive layout for a smooth pet matching experience.
- Packaged and deployed website via GitHub with clear documentation and instructions for users.
